EDUCATION

BSc (Hons) in Computer Science
Undergraduate
University of Plymouth - UK

SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Sinhala (Native)

PROFILE

As an enthusiastic programmer proficient in JavaScript, HTML, CSS, and Arduino, with foundational knowledge in C, C#, and Flutter, I am eager to secure an internship opportunity. My aim is to further enhance my skills while contributing to innovative projects. I'm particularly excited about gaining hands-on experience and collaborating with a dynamic team to tackle real-world challenges in the field of software development.

TECHNICAL KNOWLEDGE

• Programming Languages

- HTML
- CSS
- JavaScript
- TypeScript

• Frameworks

- ReactJS
- NextJS

• Hardware

- Arduino

PROJECTS

• UNILODGE

UniLodge is a website where students can find nearby accommodations easily. I helped create the frontend using React and Tailwind CSS. It's designed to be user-friendly, making it simple for students to search for boardings near their universities.
(<https://github.com/Terracode-Dev/unilodge>)

• EjudiCase

Ejudicase is a Flutter app designed to connect users with lawyers effortlessly. My contribution involved crafting the frontend screens. With Ejudicase, users can easily find and contact lawyers for their legal needs, all within a simple and intuitive interface.
